

YOUR JOURNEY OVER  
CENTURIES, ERAS & ADVENTURES

# WHAT WE DO

Collectible figures created by  
ATTICA MINIATURES embody  
the heroic epos by virtue of  
the gifted artists' craftsmanship.

## MINIATURES PAINTING

We offer three painting levels for the  
historical and fantasy miniatures of 28, 54,  
75, 90, 120, 200mm scales.

## CUSTOM-MADE FIGURES

We provide a full miniature production cycle  
from creation to a scratch to casting and  
painting. We can create a custom-made  
figure, if you are looking forward to a unique  
piece of art.

## VIGNETTES & DIORAMAS

Scenes from life of heroes and indigenous  
people, battles which altered the course of  
history depicted in miniature vignettes.

## CUSTOM-ORIENTED APPROACH

Unlike mass production of the painted toy  
soldiers, we specialize on one-of-a-kind  
pieces. We can implement any ideas  
regarding landscape, colors, weapons or coat  
of arms.

# CUSTOM-MADE FIGURES

We create miniature figures of the most popular scales from scratch.

# TIMELINE

We always undertake a historical research and set up a working group of sculptor, painter and art director to consider every nuance of the figure at an early stage of its creation.

The members of the working group guide the sculpting process in order to ensure greater coherence in embodying the client's desires.

We cut the sculpted figure into pieces, make the moulds, cast the pieces in metal or resin and manufacture cold steel weapons, if appropriate.

The magnificent pieces of art are being created if an artist has been diving into the process from the very beginning.
